I've seen the previous Legends in Concert Waikiki show and John Stuart had me visit the Las Vegas show. At that time I auditioned as a 1970's version of Elton John but the Hawaii show closed before I had a chance to perform. I currently perform a Jerry Lee Lewis tribute.

I've been a music industry professional for many years as a performer, studio musician, and executive at Geffen Records and International Creative Management. I've produced and promoted numerous music events so I understand the needs of an employer. I show up on time, knowing my material, with a good attitude towards my fellow performers and staff and employer, and most importantly I deliver the best possible service and entertainment for the client.

I look forward to speaking with you further about a potential position as a substitute keyboard player for Legends in Concert Waikiki and I thank you for your consideration.
